EXPERIENCE

GOOGLE SUMMER OF CODE 2018

May 2018 - Aug 2018

- Completed my GSoC 2018 on project SNARE/TANNER under organization, The honeynet org .

CORE MEMBER OF HONEYNET ORG

Norwegian chapter | Aug 2018 - current

- The honeynet org is a famous cyber-security based open source organization.
- I am currently a member of this org and hold collaborator rights on the repository of one of their projects.

PROJECTS

SNARE/TANNER | GSoC 2018

Dec 2017 - current

- An open source python based web-application honeypot aimed at capturing maliciousness all over the web.
- I improved the analyzing technique of the honeypot by creating heuristic decision binary-trees making the detection process more meaningful and sustainable.
- I created authorization for its API using JWT, to secure the honeypot's detection data, which was previously not secure.

CREDENTIAL CAPTURING HONEYPOT | INNOVATION LAB, IIT-PATNA

Jan 2018 - Apr 2018

- A python based web-application honeypot aimed at capturing credential of maliciousness personell within a specific organization.
- Worked with Dhanush SR to create the server, analyzer and webUI using aiohttp python library.

TRAINING AND PLACEMENT PORTAL | DBMS LAB, IIT-PATNA

Oct 2018 - Jan 2018

- A web-application portal for students and companies to register and make the training and placement process efficient and convenient.
- Worked with Anushree Jain to create the server using Django framework backed by a MySQL database.
